

WASTEWATER OPERATOR TRAINING CENTER  
FISCAL YEAR 2003 - 2004

training schedule

For Water and wastewater Professionals  
**STATEWIDE WASTEWATER OPERATOR TRAINING CENTER**  
**TRAINING SCHEDULE**

This calendar has been compiled by the Statewide Wastewater Operator Training Center for water and wastewater operators and all supporting personnel such as maintenance and collection personnel. The calendar lists and describes training sessions to be sponsored by the training center

during the coming fiscal year.

The calendar only includes seminars planned as of printing time. Any additional training sessions will be announced separately in the quarterly newsletters or in the individual Training Session Announcements. Concerning the listed sessions, specific training session announcements from the training center will be sent approximately two months prior to the scheduled date. If you have not received an announcement two weeks prior to the scheduled date, please call the training center at telephone (808)832-5478. As hard as we try not to, unforeseen occurrences may cause a change of date on the calendar. You should not submit a registration application until you have received the training session announcement. The calendar is just for advance planning informational purposes.

Training session announcements will give all details for each session. Information such as location, dates, times, educational points, instructor, tuition (if applicable), book fee (if applicable), etc. are discussed. All courses are taught on **Oahu** unless indicated otherwise (e.g. at Maui, Kauai, or Hilo/Kona, Hawaii). The prerequisite for intermediate courses is: completion of the Basic Course; CAVI Course; Sacramento - California State University Course; or upon supervisor's approval. Prerequisite for advanced courses is" completion of a related intermediate course; Sacramento - California State University Course; or upon supervisor's approval.

We hope the calendar will help you plan your training for the coming fiscal year. If you have any or would like further information or specific training sessions in general, please call the Administrator.
